

Day Software Selects Client Interaction to take NetSuite implementation to new level of excellence.

Client Interaction, Inc., a leader in on-demand technologies and top NetSuite Solution Provider, has been retained by Day Software AG, a leading global content-management software provider.

Client Interaction, with its extensive expertise in financials and CRM processes, has been hired to bring Day Software's NetSuite implementation to an advanced level.

Client Interaction will work with Day Software to increase their efficiencies by establishing Best Practices for CRM, to improve their Reporting with Advanced Analytics, and to simplify their Data Entry. Day Software, with over 200 implementations world-wide, is headquartered in Basel, Switzerland and Newport, California.
